

Technical Analyst Cover Letter

8685 Langworth Road
Bobport, NM 58287

Dear Emerson Rath,

Please consider me for the technical analyst opportunity. I am including my resume that lists my qualifications and experience.

In my previous role, I was responsible for database design, development, and support to all SQL Server database applications.

My experience is an excellent fit for the list of requirements in this job:

- Creativity, innovativeness and flexibility in responding to rapidly changing needs and priorities of IT department and user community
- Knowledge of computer/computational science, data analysis, and some programming technologies, concepts, and techniques
- Experience with large scale time and attendance interface and reporting tools preferred
- Programming experience with Visual Basic, Java, Javascript, or similar is preferred
- Technical experience with monitoring tools such as Gomez/NewRelic/Splunk
- Experienced with various browsers (IE/Chrome/Firefox)
- Experience in the Healthcare industry such as Eligibility, Enrollment or Claims
- Cloud Services Competency (Office365, Box, Dropbox, Google Drive)

Thank you for your time and consideration.

Sincerely,

Casey Breitenberg
