

Technical Illustrator Cover Letter

75590 Larson Island East Myesha, KS 23032

Dear Armani Keebler,

In response to your job posting for technical illustrator, I am including this letter and my resume for your review.

Previously, I was responsible for technical leadership to on-shore and off-shore teams in Adobe Campaign Tool, and in general, marketing operations.

Please consider my experience and qualifications for this position:

- Produce and check manuals for completeness, correctness and compliance with Portable Power Technical Publication standards
- Develop and maintain good working relationship with team members within Engineering and from other departments (Manufacturing, Marketing, Purchasing)
- Integrate their input to ensure documentation success
- Provide technical support to other departments such as Assembly, Manufacturing, Marketing, Quality Assurance, as requested
- Prepare drawings, Engineering Changes, and SAO releases consistent with Engineering Dept
- Understand presentation graphic techniques
- Experience preparing and coordinating technical documentation (engineering drawings, specifications, statements of work, technical manuals)
- Experience with Military Aircraft technical manuals and drawings

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Emery McCullough
