

Technical Research Assistant Cover Letter

10396 Reginald Streets South Brock, MN 07711-8301

Dear Corey Denesik,

I would like to submit my application for the technical research assistant opening. Please accept this letter and the attached resume.

Previously, I was responsible for technical support for laboratory based research in a highly multi-disciplinary team conducting research involving bench techniques, laboratory animal work, scientific writing, and data analysis.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Willingness to learn other laboratory techniques
- Knowledge of oceanographic principles as demonstrated by coursework or job experience
- Knowledge of basic electronics as demonstrated by coursework or job experience
- Previous laboratory coursework or laboratory work experience preferred
- Previous Experience Working with Mice in a research setting highly preferred
- Relevant course or project work
- Previous work experience in an academic research setting preferred
- Familiar with animal welfare guidelines for research and previous experience managing IACUC protocols preferred

Thank you for considering me to become a member of your team.

Sincerely,

Max Wisoky
