

Technical Research Assistant Cover Letter

578 Abernathy Lane
Lake Adafort, HI 42351

Dear Tyler Prosacco,

In response to your job posting for technical research assistant, I am including this letter and my resume for your review.

Previously, I was responsible for laboratory management in electrical and computer engineering research operations and educational laboratory management.

Please consider my qualifications and experience:

- To provide timely support for research activities, solid skills in the use of Microsoft applications is needed such as Word and Excel
- Relevant course or project work in biological science preferred
- Basic understanding of scientific, in particular biological, concepts
- Creative and motivated in research area
- The environment is highly collaborative and requires both team work and individual responsibility in completion of tasks
- May be exposed to hazardous chemicals in a controlled environment
- Survey design (training available)
- Writing of human interest-style stories and reports

Thank you for your time and consideration.

Sincerely,

Greer Gusikowski
