

Technical Services Specialist Cover Letter

730 Predovic Vista Moenview, VT 87924

Dear Royal Rau,

I submit this application to express my sincere interest in the technical services specialist position.

In the previous role, I was responsible for advanced Laser Electro-Optics technical and design integration support to scientists, engineers, and designers in support of the Optical Target Diagnostics.

Please consider my experience and qualifications for this position:

- Sound knowledge on latest technologies like Internet of Things (IoT), Smart Cities, Security
- Experience in HVAC or Hydronics industry is preferred
- Experience using Microsoft Dynamics or other CRM preferred
- Well versed with e-mail communication and some knowledge of web-based research
- Demonstrates teamwork and persistence when dealing with customers, with customer service on behalf of customers, with other departments, and with external customers
- Build productive working relationships internally and externally
- Carries out duties in compliance with established business policies and requirements of Quality Management System per ISO, FDA and other regulatory agencies
- Proficient with Oracle Order Management and Bonafide software packages (Oracle preferred)

Thank you for your time and consideration.

Sincerely,

Corey Heidenreich
