

Technician Cover Letter

204 Zoe Underpass Lake Debroah, OH 41113

Dear Dakota Medhurst,

Please consider me for the technician opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for input and oversight in order to manage Facility assets and the provision of infrastructure & inventory asset management.

Please consider my qualifications and experience:

- Increase capacity and decrease cycle time needed to deliver and maintain Telecommunications services to agency clients
- Perform assessment, installation, testing, and repair of the SOM Cisco IPT solution as needed to facilitate customer satisfaction with DTMB as their service provider
- Assure all data and inspection plans are accurate in LIMS
- Work collaboratively at all times to support all functions, customers and suppliers
- Maintain accurate records of all work carried out, manage projects and project documentation to an externally auditable level
- The scheduling of work through the testing process to ensure its timely completion in line with Key X's (Mechanical test time and OTIF)
- Strong knowledge in composite materials covering a range of matrix & reinforcement technologies
- Is safety conscious and works in a safe manner

I really appreciate you taking the time to review my application for the position of technician.

Sincerely,

Frankie Upton
