

Technology Strategy Manager Cover Letter

3994 Arden Mount West Kaifurt, WV 89501-1597

Dear Morgan White,

I am excited to be applying for the position of technology strategy manager. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for thought partnering to the finance and senior digital leadership in defining financial frameworks and operating models.

Please consider my qualifications and experience:

- Basic knowledge of development languages and SQL
- Presentation Layer (Client, web front-end)
- Understanding and experience in Workplace and Connectivity technologies such as private and public data networks, workplace productivity technologies and platforms, mobile, voice, video and data, fixed / IP voice networking and unified communications, Cloud, social and mobility and Internet of Things (IoT)
- Understanding and experience in of Data Centre technology areas such as data centre strategy and migration, finance and sourcing of infrastructure managed services or cloud, Infrastructure cost reduction, ERP infrastructure and converged infrastructure
- Experience leading diverse teams with a range of capabilities, supporting and developing our practitioners and acting as a role model
- Experience in Architecture principles like TOGAF is preferred
- Experience working with clinical informatics teams in the deployment of Electronical Medical Record system (Epic, Cerner, McKesson)
- MBA, Nursing, MD or relevant post-grad work preferred

I really appreciate you taking the time to review my application for the position of technology strategy manager.

Sincerely,
