

Temporary Research Assistant Cover Letter

788 Kirlin Walk Pollichborough, IL 68866-8146

Dear Armani Blanda,

I submit this application to express my sincere interest in the temporary research assistant position.

Previously, I was responsible for research protocol assistance: prepare and coordinate new and continuing clinical research protocol applications for IRB review, signature and timely approval by research committee.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Written and conversational Spanish is preferred
- Willing to work additional hours/Saturdays during peak periods
- Appreciation for agriculture and field research
- Previous experience in medical setting
- Previous experience in the biomedical sciences
- Other statistics software
- Other graphing software
- Expertise in three-dimensional cell culture, stem cell culture, targeted therapy, pharmacological assays, protein purification, and PCR is essential

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Ryan Krajcik
