

Test Consultant Cover Letter

10818 Vandervort GlenBobbyberg, NY 22520

Dear Gray Wilkinson,

I would like to submit my application for the test consultant opening. Please accept this letter and the attached resume.

Previously, I was responsible for metrics and desired outcomes for complete testing process; define test environment configurations, tools and prepare testing environment.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Good background in various types of testing
- Demonstrated experience in programming or scripting languages such as Java, C#, JavaScript
- Have experience in scripting languages such as Jscript, Perl, Python
- Strong level of analytical problem solving skills to identify and diagnose problems and issues, excellent attention to details
- Knowledge of computer, communications, and networking methods and systems
- Experience with tractor trailer and large military vehicle operations
- Knowledge of Cyber and IA certifications processes and procedures
- Extensive technical skills covering digital products and technologies knowledge as applicable to testing

I really appreciate you taking the time to review my application for the position of test consultant.

Sincerely,

Peyton Hoeger
