Test Engineer Software Cover Letter

83001 Fisher WalkWestfort, CO 36740

Dear Ari Stroman,

Please consider me for the test engineer software opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for consultation to development teams and database developers to design performance test strategies to be executed and analyzed throughout the SDLC process.

Please consider my qualifications and experience:

- Experience with software analysis
- Basic programming experience or knowledge(SQL)
- Basic knowledge of basic software principles and life cycle
- Strong communication skills and able to understand problem description well
- Preferably a B.E/B.Tech with good academic track record
- Should be flexible on work timings
- Working knowledge of ISO13485, FDA QSR for medical device, and relevant international standards preferred
- Solid understanding of software development life cycle (SDLC) preferred

Thank you for taking your time to review my application.

Sincerely,

Tatum Ferry
