

# Test Engineer Software Cover Letter

50001 Schmeler ForgesNew Cliffordchester, ID 65706

**Dear Azariah Spinka,**

I submit this application to express my sincere interest in the test engineer software position.

In the previous role, I was responsible for input to Development on software design and on ways to increase product testability to support more extensive test automation.

My experience is an excellent fit for the list of requirements in this job:

- Able to work with hardware related to home automation
- Able to routinely work throughout the complete development stack including z-wave, Linux , Ruby, Rails, MySQL, iOS, Android, WinPhone
- Experience testing mobile application on iOS, Android and WinPhone
- Selenium, Watir or other web automated testing tools
- Basic SQL query and Mysql experience
- Experience with scripting (Shell/Bash, Python, Perl)
- Experience writing, debugging, and maintaining code written in Java
- Experience and knowledge in CUDA and/or OpenCL

**Thank you for your time and consideration.**

Sincerely,

Briar Gislason
