Test-Integration Cover Letter

601 Ed IslandBogisichbury, AL 28104

Dear Emerson Bashirian,

I am excited to be applying for the position of test-integration. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for technical engineering support for the Space and Naval Warfare Systems Command (SPAWAR) Outside Continental United States (OCONUS) Navy Enterprise Network (ONE-Net) Program.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in planning, developing and executing Test Plans and Test Procedures and coordinating the collection of test results
- Knowledge of both traditional waterfall and Agile project methodologies
- Experience working with both in house and vendor developed applications
- Detailed oriented personality complimented with strong analytical and problem solving skills
- Knowledge of Retail, POS, Warehousing/Inventory, Supply Chain, or Finance industries an asset
- Hands-on, in-depth knowledge of software quality assurance/testing methodology and practices
- Strong understanding of standard SDLC methodologies
- Hands-on experience performing system testing for accounting and budgeting functions (e.g., financial management ERP functionality)

Thank you for taking your time to review my application.

Sincerely,

Bellamy Stehr
