

# Test-Integration Cover Letter

487 Fadel Islands North Abduftown, ME 01459-1772

**Dear Tatum Auer,**

In response to your job posting for test-integration, I am including this letter and my resume for your review.

Previously, I was responsible for traceability of testing to requirements being tested via a SW tool (e.g., DOORS, Rational Test Manager, etc.).

My experience is an excellent fit for the list of requirements in this job:

- Aircraft Sensor and Weapon Integration
- Distributed simulation and training experience
- Previous schedule/planning of resources, personnel, equipment, budget execution
- Previous FBM experience
- Previous test lab operations and supervision of hourly personnel
- Previous leadership of Union represented employees
- Previous experience with equipment calibration and preventative maintenance
- Demonstrated experience with Safety focus mindset

**I really appreciate you taking the time to review my application for the position of test-integration.**

Sincerely,

Cameron Nader
