

Test Manager Cover Letter

532 Demarcus MissionLake Elinside, OH 78896

Dear Story Spinka,

I am excited to be applying for the position of test manager. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for oversight, applying productivity and management methods to include Quality Assurance, Configuration Management, and Work Breakdown Structure.

Please consider my experience and qualifications for this position:

- Experience, training and/or skill in order to interpret testing data, to understand basic test scoring and test data issues, and to do research investigating standardized testing anomalies
- Understand business goal and objectives and align QA strategy/road-map accordingly
- Ensure all Testing scope and deliverables are defined and agreed with the relevant people, right from the initial stages of the project
- Strong Expertise in database testing and should be expert in writing and assisting complex SQL Queries
- Track record in providing test management and services to support test assurance
- Bachelor of Science in Engineering or Physical science or H.S
- Experience in working on BFSI projects / financial organization and mainframe systems/platforms
- UAT Test Manager on MMIS projects

Thank you for taking your time to review my application.

Sincerely,

Alexis Wuckert
