

# Test Manager Cover Letter

5830 Parisian Villages North Johnnie, SD 85997

**Dear Charlie Mitchell,**

I would like to submit my application for the test manager opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for expertise and consultancy on quality management, quality assurance, quality control and quality improvement to the organization;

Please consider my qualifications and experience:

- If requested, identify and document the test data requirement for the complicated projects
- Review test data, screen flow documents etc Evaluate and identify various tools to aid test execution based on the understanding of the requirement
- Test Project Planning and execution
- Excellent knowledge and understanding of QA processes and the Testing industry
- Excellent understanding of testing concepts and how testing fits in with the overall project life cycle
- BE / M Tech / MCA from good college / university
- Experience in working on BFSI projects including ATM devices and mainframe systems/platforms
- Strong skills in functional testing & test planning

**Thank you for your time and consideration.**

Sincerely,

Onyx Goyette
