

Test Manager Cover Letter

9113 Amado StreamNew Mariko, RI 44612

Dear Drew Larkin,

Please consider me for the test manager opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for ongoing status updates and recommendations to management as to how to improve the quality assurance process and influence quality assurance across the organization.

My experience is an excellent fit for the list of requirements in this job:

- Business Objects or Business Intelligence testing experience
- Experience with testing warehouses, data marts, and OLAP cubes
- Experience with the CMS XLC, knowledge of the CMS Technical Reference Architecture, Agile SCRUM within the CMS Federal domain
- Experience with commercial and government risk adjustment platforms (EDPS/RAPS/EDGE), 5010 HIPPA transactions, and ASC X12N 837's, and Medicare Part C file requirements
- Experience in Medicare Advantage claims and policy knowledge including direct experience managing or analyzing claims processing systems or other related information management systems
- Experience gathering, validating, analyzing and documenting the stated business, requirements, and the creation of the project use cases, visual models, requirements specifications, and reports for a Medicare Part C Risk Adjustment processing system
- Working knowledge of requirements and change management processes
- Knowledge of CMMI SDLC methodology preferred

I really appreciate you taking the time to review my application for the position of test manager.

Sincerely,
