

# Testing Analyst Cover Letter

90039 Franecki VistaPort Sulemachester, CA 62157-6053

**Dear Reese Beatty,**

I submit this application to express my sincere interest in the testing analyst position.

In the previous role, I was responsible for meaningful insights (trends, financial analysis, metrics development and tracking), leveraging data source mining and data analysis.

Please consider my qualifications and experience:

- Hands on experience in testing databases, ETL load processes and SQL stored procedures
- Data Owner and Site Contact engagement
- Tracking of Vulnerabilities
- Understanding the format and content of test reports
- Understand Triage principles and Risk Matrix
- Understand distribution of penetration testing reports and Triage decisions
- Understand remediation tracking role, how services align and current status of vulnerabilities and key areas to concentrate on
- Understand key remediation partners – Digital Banking, Online Channels and how to contact them – all key stakeholders

**Thank you for considering me to become a member of your team.**

Sincerely,

Denver Feest
