

Testing Analyst Cover Letter

305 Zella WellDrusillahaven, OK 51423

Dear Ari Keebler,

I am excited to be applying for the position of testing analyst. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for analytical support to develop, interpret and report financial results for Line of Business 3, including trending, variance analysis and commentaries.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Knowledge on different environments such as QA, User Acceptance Testing, Production, Training, Staging
- Knowledge on Test Automation (and tools), Frameworks will be beneficial
- Analytical, research, organizational and problem-solving skills
- Respond to time-sensitive needs of the business and consistently meet deadlines
- Commitment, diplomacy and professionalism under stressful conditions
- Strong knowledge of and experience with databases (SQL) and visualization software (Qlik Sense) is preferred
- Certificates in Web Apps, Wireless, Network, and/or Cyber Security
- Background with development/scripting

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Tyler Balistreri
