

Testing Analyst Cover Letter

841 Schmitt HillsNew Tiny, CT 66586-3448

Dear Cameron Wiegand,

I would like to submit my application for the testing analyst opening. Please accept this letter and the attached resume.

Previously, I was responsible for analysis of processes and data relevant to assigned department, including technical analysis that may impact present and future performance.

My experience is an excellent fit for the list of requirements in this job:

- Practical Knowledge of Microsoft Office Applications especially Excel and Excel macros
- Should have good programming skills
- Knowledge of the design and setup of load testing environments to support specific test objectives
- Knowledge of Compuware performance monitoring solutions is a distinct advantage
- Good grasp of relational database concepts and structures use of SQL
- This person should be a self-starter needing minimal instructions to problem solve and execute tasks
- Willingness to work in a global team environment
- Understanding between A|B and multivariate testing strategies for dynamic landing pages and the utilization of them

Thank you for your time and consideration.

Sincerely,

Finley Klocko
