

# Testing Engineer Cover Letter

3277 Floyd Manor West Howardfurt, AR 11672-3199

**Dear Drew Nader,**

I submit this application to express my sincere interest in the testing engineer position.

In the previous role, I was responsible for systems engineering and integration for SMC systems, including launch space and ground systems.

Please consider my experience and qualifications for this position:

- Familiar with MVG system, know how to operating, maintenance and optimize antenna chamber
- Better to have active testing knowledge
- Good RF and microwave understanding
- Good understanding on BTS antenna
- Good written and speak English
- Knowledge about vacuum pump, mechanical and electric or electronic control
- Knowledge of financial domain would be nice to have
- DB basic SQL queries / stored proc knowledge

**I really appreciate you taking the time to review my application for the position of testing engineer.**

Sincerely,

Campbell Aufderhar
