

Testing Engineer Cover Letter

3166 Jaquelyn Stream Leuschkeborough, IL 01922-9338

Dear Justice Kuphal,

I am excited to be applying for the position of testing engineer. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for gEOINT ground architecture performance assessment to the vehicle requirements & integration team.

Please consider my qualifications and experience:

- Understanding of solid-state lighting industry specifics, preferably by having prior experience in this industry
- Technical knowledge in at least one relevant optics area (lens design, LED optics, chromaticity)
- Excellent hands-on skills
- Experience working in an optical lab environment
- Familiarity with LightTools, Zemax, and other optical design software
- Positive, team-oriented, proactive attitude
- Some practical proven experience in penetration testing
- Experience in different exploitation tools and frameworks (Metasploit, BeEF, SQLMap)

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Charlie Bartell
