Dear Quinn Hermann,

In response to your job posting for testing engineer, I am including this letter and my resume for your review.

In the previous role, I was responsible for systems engineering and integration for MILSATCOM systems, including space, ground, and network communications systems.

My experience is an excellent fit for the list of requirements in this job:

- Strong capacity of statistical analysis of data and turning analysis result to solution
- Acts as a mentor to EIs, ELLs in the engineering team, and steer skills to focus on technical and project problem solving skills
- Able to effectively work within engineering team and utilizes resources to produce optimal results
- Proficient in both Chinese & English
- Sound technical understanding of process engineering and instrumentation
- Team player and communicative
- Analytical/ logical skills, to comprehend functional requirement
- Conversant with test processes

Thank you for taking your time to review my application.

Sincerely,

Sawyer Auer
