

Testing Engineer Cover Letter

9982 Hamill Oval Mayertport, OH 78375

Dear Phoenix Hane,

Please consider me for the testing engineer opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for systems engineering and interface integration support to the MSFC Systems Requirements, Verification & Validation Branch and the LIMO, for Space Launch System (SLS) Integrated Launch Vehicle ground operations.

Please consider my qualifications and experience:

- Knowledge of Clean Air Act and air emissions regulations and permitting
- Participated as team member in SW testing projects
- Participates in project-level reviews, walkthroughs and inspections, and conducts test reviews, including test plans, requirements, cases and automation
- Raises automation opportunities to more senior employees and implements simple automation efforts
- Demonstrated experience with U.S. , Canadian, and other International product EMC standards, , ANSI, CSA, UL, EN, IEC is preferred
- Proficient use and understanding of test engineering concepts, principles, and theories
- Extensive knowledge of security practices and procedures
- Knowledge of computer networking and Configuration

Thank you for your time and consideration.

Sincerely,

Justice Brown
