Testing Senior Manager Cover Letter

29311 Watsica MeadowsKrisland, AK 41437

Dear Avery Schuster,

I would like to submit my application for the testing senior manager opening. Please accept this letter and the attached resume.

Previously, I was responsible for necessary guidance to the VS teams related to QE (TDD, BDD, Test automation, performance testing, building quality in from the beginning, and test data management).

My experience is an excellent fit for the list of requirements in this job:

- Problem solving & strategic thinking & growth mind-set which are needed for taking sophisticated problems, simplifying them and distilling them into workable plans and actions toward our audacious goal to build the best and most adopted compliance program in the world!
- Experience in working on Agile/Scaled Agile (SAFe) is mandatory
- Exposure to Database Management System (DBMS) and key databases
- B.Tech/M.Tech in Information Technology or any other related fields
- Demonstrated technical skills and experience, preferably in the RF/wireless, Display or Audio technology, consumer electronics, or other technology-based industry sector, including a detailed understanding of Final Assembly, Test and Package
- Knowledge of web technologies, operating systems (Linux/ Windows) and network communication methods
- Experience in blogging and/or presenting at leading conferences on topics related to software quality, software engineering best practices
- Subject matter expertise of Key Control Testing requirements including identification, analysis, build and testing

Thank you for considering me to become a member of your team.

Sincerely,
