

# Texture Artist Cover Letter

17286 Kilback MissionVonRuedenview, NH 13107

**Dear Onyx Feeney,**

In response to your job posting for texture artist, I am including this letter and my resume for your review.

In my previous role, I was responsible for solutions to visual problems by creating photo-realistic textures, either hand painted or procedural, to the necessary level of detail for production assets.

Please consider my qualifications and experience:

- Expert skills in Substance Painter and designer
- Strong modeling skills in a 3D modeling software
- Solid understanding of PBR rendering and material / light interactions
- An excellent understanding of color theory and lighting, and an affinity for texturing characters and props architectural and natural environment elements
- Proven experience creating photo-realistic 3D models and textures from photo reference • Demonstrate artistic eye for styling and grooming
- Experience in a VFX/post-production studio
- Have a clear understanding of the modeling process
- Able to interpret designs and accurately match reference material

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Landry Little
