**Dear Riley Smitham,**

In response to your job posting for trading support, I am including this letter and my resume for your review.

Previously, I was responsible for tier 2 and 3 troubleshooting and resolution for incidents and requests for desktops, laptops, tablets, printers, applications, and associated peripherals.

My experience is an excellent fit for the list of requirements in this job:

- Working on back-testing of trade ideas
- Building GUI for the trading desks
- Working on projects involving data mining, machine learning of tick data
- Developing tools / UI to help trading desk analyze markets
- Generating trade ideas for the desk
- Experience with CMMI processes and documentation is preferred
- Experience in writing business documents, such as functional specs and result summaries, communicating project/issue status – both written and verbal
- Analytical mindset with curiosity on HOW & WHY

**Thank you for taking your time to review my application.**

Sincerely,

Dallas Upton
