

Trading Support Cover Letter

570 Darron Walk
Goyette
mouth, MN 26746

Dear Oakley Barton,

I submit this application to express my sincere interest in the trading support position.

Previously, I was responsible for first line of tier 2 support for "PC Support" - troubleshoot, isolate, repair, and resolve all customer issues concerning desktops, laptops, printers, facsimiles, copiers, and other peripherals.

Please consider my experience and qualifications for this position:

- Confident communicator with strong interpersonal skills comfortable working on trade floor directly with the business
- This would include at least the basic use of a scripting language and preferably competence in a dynamic programming language
- Understand the concepts of algorithmic trading, smart order routing and dark pools
- Knowledge on Client/Server application
- Comfortable working on Windows/Unix environments
- Previous experience working with developer or Business Analyst
- Experience in automation of manual process
- Equities / cash equities trading experience

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Onyx Batz
