

# Traffic Specialist Cover Letter

9159 Buckridge CommonStrosinview, IN 34978-2070

**Dear Tyler Shields,**

In response to your job posting for traffic specialist, I am including this letter and my resume for your review.

In my previous role, I was responsible for air traffic control expertise to the TFMS Program Office.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Review and comment on roadway, signing & pavement marking, and MOT plans
- Lead and/or assist in the development of conceptual plans and reports, coordination with other agencies, and preparation of scopes of work
- Perform basic and advanced traffic engineering functions such as highway capacity analysis, ramp and weave analysis, and freeway segment analyses
- Perform traffic studies such as speed studies, signal warrant analyses, gap studies and lane closure analyses including review of lane closure requests
- Analyze fatal crashes and other crash data to determine locations that need traffic improvements for promoting motorist safety
- Collect traffic data for volume and speed, and perform lane closure analyses
- Address customer complaints regarding traffic congestion, signage and other traffic related issues
- Review MOT plans and propose the need for changes from the stand point of motorist safety

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Landry Bradtke
