

Traffic Specialist Cover Letter

36958 Blaine MallLeifview, ND 52623

Dear Quinn Murray,

I submit this application to express my sincere interest in the traffic specialist position.

Previously, I was responsible for mentoring for region technical center staff and consultant traffic engineers using the Work Zone Traffic Analysis software.

My experience is an excellent fit for the list of requirements in this job:

- Provide Traffic Incident Management (TIM) support to enhance the transfer of information to motorists and improve the efficiency of operations, and facilitate the management of incidents on the Turnpike
- Represent Traffic Operations at Production and Construction Meetings
- Act as a liaison between traffic operations and construction for the implementation of maintenance of traffic plans
- Successful applicants shall hold a Bachelors of Science in Civil Engineering
- Hold an E.I
- Basic knowledge of printing processes including press production
- Experience with data analysis and Excel
- Experience in Digital Media/ Ad Operations is preferred

Thank you for your time and consideration.

Sincerely,

Sam Smitham
