

UI / UX Cover Letter

75915 Lorenzo CrestSherylchester, IL 56406

Dear Tyler Friesen,

I am excited to be applying for the position of UI / UX. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for visible leadership and partnership with OEM customers, Systems and Software Engineering, and Customer Program Management (CPM) teams.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience creating wireframes, storyboards, user flows, visual designs, and mobile prototypes
- Proficiency in Photoshop, Illustrator or other visual design, wireframing and prototyping tools
- Experience creating animated mockups of UI flows and transitions (or prototypes)
- Enthusiasm and passion for simulation, casual, and casino games
- Experience working with Unity and creating prefabs
- Flash or After Effects skills
- Experience with Sketch, Invision and the Adobe suite of tools
- Solid understanding of web development processes, including front-end and back-end development concepts

Thank you for your time and consideration.

Sincerely,

Shiloh Hagenes
