

# Urban Designer Cover Letter

97928 Theron Crossing Boydfort, MD 79692

**Dear Story Auer,**

I submit this application to express my sincere interest in the urban designer position.

Previously, I was responsible for information to project engineers and cost estimating specialists with detailed drawings and bills of materials in order to create accurate cost estimates.

Please consider my experience and qualifications for this position:

- Prepare high quality visualisations from sketch to illustrative and presentation standard, and
- Competence in the use of the full range of design packages including AutoCad, the full Adobe Creative Suite, 3D packages including Sketch-Up, Rhino, , and Microsoft Office suite
- Confidence and competence in drawing and sketching by hand
- Experience in Master Planning of cities and neighborhood, design of public spaces, building design, streetscape design
- Be fluent in AutoCad, Photoshop, InDesign, Sketchup, Illustrator and Microsoft Packages
- Be able to produce detailed work to a specific brief within tight deadlines
- Native application and website experience
- Understanding of creating developer ready artwork

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Rory Hickle
