

User Acceptance Tester Cover Letter

547 Schowalter Route South Milan, MD 26940-6724

Dear Avery Nader,

In response to your job posting for user acceptance tester, I am including this letter and my resume for your review.

Previously, I was responsible for objective feedback to software development teams and presents findings to business stakeholder and project teams.

Please consider my experience and qualifications for this position:

- In depth business change knowledge including
- Experience of using Confluence or JIRA – preferred
- Interacting with internal and external customers in a matrixed environment
- Creating and documenting a program process and architecture diagrams
- EDelivery Project
- Retirement Plan/Industry experience, highly preferred
- Extension possible
- Contract Only Assignment

Thank you for your time and consideration.

Sincerely,

Ryan Kris
