

User Acceptance Testing Cover Letter

7429 Chandra Spur East Siu, FL 12581-4687

Dear Rowan Hayes,

I submit this application to express my sincere interest in the user acceptance testing position.

In the previous role, I was responsible for oversight and direction to UAT testers (includes offshore and onshore) for multiple projects ensuring requirements traceability and timely defect management.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience working with developers and other project stakeholders
- Experience using Application Lifecycle Management (ALM), JIRA, MS Office products including MS Project and Visio
- Experience with Direct Auto Finance systems including RCO, ACAPS, CAD, Webstats, IVR
- Solid understanding of SDLC and Quality Assurance concepts, metrics analysis, methodologies, and documentation standards
- HP Quality Center (ALM) experience is essential
- SQA Certification preferred
- Is extremely organized and can coordinate necessary tasks to complete testing
- Can work closely with technical partners to achieve System Integration Testing

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Dallas Terry
