

# User Architect Cover Letter

872 Brooks ForksHowardberg, UT 25503-5867

**Dear Tyler Langworth,**

I would like to submit my application for the user architect opening. Please accept this letter and the attached resume.

Previously, I was responsible for design and troubleshooting of Active Directory and Group Policy as it pertains to the Windows client environment, skilled at Group Policy security design and best practices as pertains to hardening and compliance.

My experience is an excellent fit for the list of requirements in this job:

- Understand business use cases for devices, applications, services, desktop software, packaging, and delivery
- Experience with Desktop and Mobility Management Tools, such as SCCM, AirWatch, VMWare Horizon
- Experience developing roadmaps, and technology initiatives
- Experience in enterprises with more than 50,000 devices
- Advanced knowledge/experience with products used to provide end-user computing services (e.g. Microsoft OS, Microsoft SCCM, App-V, Symantec Altiris Endpoint Management , Symantec SEP, Druva inSync, Citrix XenDesktop / XenApp )
- Proven success identifying and applying technologies and standards to solve complex business problems including product selection and application development
- Proven track record of promoting successful delivery of projects related to digital commerce, architecture and software development, in a manner that allows for technology transformation with minimal disruption to business operations
- Familiarity in iOS, Windows, Linux environments

**Thank you for your time and consideration.**
