

User Architect Cover Letter

478 Carmon Falls East Vannesaberg, SD 70008-3106

Dear Peyton Kemmer,

I am excited to be applying for the position of user architect. Please accept this letter and the attached resume as my interest in this position.

In my previous role, I was responsible for technical expertise in the domain of IT end user computing in the areas of operations, project management, and serve as an escalation resource for all technical needs.

My experience is an excellent fit for the list of requirements in this job:

- Working experience with a content management system, in particular with XML-based CMS
- Experience with state-of-the-art, Web-based Information products, or with networked portals
- Programming experience with XSLT, XPath and XSL-FO, solid knowledge of HTML5 and CSS
- Knowledge of various scripting- and programming languages, such as Javascript, .NET, VB, Python
- Solid knowledge of relevant authoring tools (e.g., Adobe FrameMaker, RoboHelp) and graphics design tools (Adobe Illustrator, SVG Editor)
- Strong communication skills and experience with working in a cross-cultural team that spans different time zones
- Knowledge of translation memory tools (SDL Trados) would be an advantage
- Experience in developing persona models for Fit for Purpose device usage and rationalization

Thank you for taking your time to review my application.

Sincerely,

Drew Hoeger
