

User Experience Architect Cover Letter

9619 Roob SquaresStarkmouth, GA 26388-3978

Dear Zion Lakin,

I would like to submit my application for the user experience architect opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for voice of the Client insights to aid the implementation of current offerings and guide the development of future products and services.

Please consider my experience and qualifications for this position:

- Experience writing web components and implementing modern web app architecture solutions
- Strong HTML5, CSS, XHTML, jQuery, and JavaScript
- Understanding of continuous development, integration, and source code management principles and experience with functional testing for next generation UX/CX technologies
- Deep knowledge of current and emerging web technologies and a working knowledge of native mobile development
- Expert in developing accessible (ADA complainant) software
- Highly motivated, self-starter who can work well in teams or independently
- Highly-adaptable and able to pivot due to changing requirements or client feedback
- Able to translate findings into clear guidance for other designers and developers

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Frankie Adams
