

User Interface Designer Cover Letter

90055 Gulgowski ViaBufordbury, OR 93886

Dear Stevie West,

I submit this application to express my sincere interest in the user interface designer position.

Previously, I was responsible for strategy and governance to the federated Zoro Design System community of practice, where the design, research, experience, testing and development teams converge to define, design, build and maintain our living Design System.

Please consider my qualifications and experience:

- Advanced Knowledge wireframe prototyping and animation tools
- Excellent Design Skills – experience in product, graphics, UX/UI design, sketching, storyboarding
- Hardware/software electronics experience (preferable, not essential) – Rapid electronics prototyping (Arduino, Raspberry Pi...)
- Excellent graphical and verbal communication skills
- Knowledge and understanding of electronics systems/architecture
- Be resourceful and able to find alternative solutions under pressure
- Bachelor or Master in Design, such as graphic, visual or communication design and a portfolio that demonstrates design expertise
- Leverages design as a business practice

Thank you for considering me to become a member of your team.

Sincerely,

Tyler Hahn
