User Interface Designer Cover Letter

74241 O'Hara DamEast Howard, AZ 19069-1978

Dear Emerson Ortiz,

In response to your job posting for user interface designer, I am including this letter and my resume for your review.

Previously, I was responsible for uX best practice documentation and workshops tailored to the customer's solution requirements and design across verticals and devices.

Please consider my qualifications and experience:

- Programming and/or scripting skills (C#, JavaScript, C++)
- Proficiency in typical office applications such as Microsoft Word, Excel, PowerPoint, OneNote, Visio
- Assumed familiarity with in-vehicle user interface design standards or guidelines (from sources such as NHTSA / DOT, SAE, ISO)
- BA/BS or MA/MS in computer science, engineering, behavioral science or closely related discipline
- Provide a work portfolio that demonstrates systematic and creative design thinking deep understanding of UI/UX best practices
- Certification by a professional standards organization in this discipline is desirable
- Proficiency in core design & wireframing software packages (Adobe CC, Sketch, OmniGraffle, Balsamiq)
- Clear and current understanding of the capabilities and limitations of HTML, CSS, JavaScript and developing platforms

Thank you for considering me to become a member of your team.

Sincerely,

Morgan Legros
