

UX Design Cover Letter

93391 Jenkins NeckPort Jim, SC 30123

Dear Charlie Murray,

I submit this application to express my sincere interest in the UX design position.

In my previous role, I was responsible for support in web site development, with a focus on usability and disability accommodation.

Please consider my qualifications and experience:

- Interdisciplinary team player
- Project experience in Visual Communication, New Media studies, Software Design, Human Computer Interactions, Interaction Design, Tangible Interactions
- Skilled in Adobe Suite – well-versed in user interface issues and information architecture on multiple platforms
- Possess an online portfolio that showcases design skills and abilities
- Passionate about interactive design and technology - Detail-oriented, hard-working, self-motivated, and proactive
- Knowledge of user-centered design principles, desktop, web, mobile design best practices and standards
- Prior work experience with Enterprise products is preferred
- Experience with prototyping, agile development and collaborative product iteration

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

River Wolf
