Web Admin Cover Letter

645 Zack InletNew Edwin, CO 05367

Dear Shiloh Torp,

In response to your job posting for web admin, I am including this letter and my resume for your review.

Previously, I was responsible for technical support, and administration of the software infrastructure for the implementation and maintenance of web sites as needed.

Please consider my experience and qualifications for this position:

- Should be good in Performing OS hardening and doing change in iptables SElinux
- Software management using Yum & RPM
- Experience in doing Application Migration
- Energetic, self-motivated and team oriented
- General understanding of what APIs are and how they work
- Provide for the upgrade and patching for the Oracle 12c database and related software
- Provide backup and recovery support and make recommendations regarding enhancements and/or improvements to the environments
- Oracle Certified Database Professional (OCP) certification

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Sutton Johnston
