Web Application Cover Letter

98100 Tillman OvalEnochville, WI 05820

Dear Quinn Conn,

I would like to submit my application for the web application opening. Please accept this letter and the attached resume.

Previously, I was responsible for second Level support and backup to Web System Analyst for all support and web application administration needs.

Please consider my qualifications and experience:

- Experience with a range of web platform technologies including jQuery, JavaScript, XML, HTML5, CSS3, PowerShell, SQL
- Strong exposure in backend development using NodeJS web application frameworks, ExpressJS
- Familiar with at least one MV* framework, ReactJS, AugularJS
- Enthusiastic in discovery of new technology, new framework
- Familiar with cloud services, AWS, Azure
- Solid knowledge of at least one major high-level JavaScript app framework, preferably React, but AngularJS, Backbone, Ember, Knockout, are also useful
- Automated JavaScript testing framworks
- Solid understanding of at least one REST framework

I really appreciate you taking the time to review my application for the position of web application.

Sincerely,

Landry Hirthe
