

# Web Application Cover Letter

40530 Ruecker WellsSouth Granville, WY 16568-9496

**Dear Lennon Conn,**

I submit this application to express my sincere interest in the web application position.

Previously, I was responsible for routine technical assistance for problem diagnosis, resolution and ongoing maintenance activities for web application and site users.

Please consider my qualifications and experience:

- Good understanding of network communications
- Experience with ALM and its tools such as TFS or JIRA
- Proficient with Visual Studio, MVC 5, Databases (SQL and NoSQL)
- Experience working in a Distributed/Cloud-based environment
- Hands on experience in Microsoft Technologies including but not limited to
- Development Experience With Java / Eclipse
- Experience Building Reports With Microsoft SQL Reporting Services
- Knowledge Of SOAP Based Web Services

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Oakley McGlynn
