Web Application Cover Letter

468 Gale CentersNew Vincenzo, KY 58308-7508

Dear Jordan Howell,

I would like to submit my application for the web application opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for task management and support in the prioritization of tickets and projects for existing Web Operations team.

My experience is an excellent fit for the list of requirements in this job:

- Experience of UI development on mobile devices
- Experience with Python or a similar scripting language (Ruby, Perl)
- Experience with client and server side web application development (HTML, JavaScript, REST, JSON)
- A solid command of database design, operation, and query optimization
- C/C++, Assembly, Jenkins, Docker, Agile, Continuous Integration, Test Automation, Windows and Linux Administration
- Conduct security scans, apply server patches, and implement Security Technical Implementation Guides (STIG) policies
- STIGs, patches, scans
- Model View Controller

I really appreciate you taking the time to review my application for the position of web application.

Sincerely,

Baylor Reilly
