

Web Applications Developer Cover Letter

600 Emil KeyEast Mathilde, MO 24105

Dear Max Ebert,

I am excited to be applying for the position of web applications developer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for guidance and support the end users in their efforts to become more proficient in the use of the applications.

Please consider my qualifications and experience:

- Solids aptitudes for the verbal and written communication (English and French)
- Proficiency with additional front-end development technologies such as HTML, DOM, CSS, event model, and cross-browser development
- Understanding of GIS data analysis
- Lead the technical coding and full life-cycle development of complex transactional web pages for mobile and desktop views
- Collaborate with business and cross-functional team members as needed
- Javascript (jQuery, Angular etc)
- Web Application Development, Design / Build experience (Desirable)
- Experience with C# (or similar)

Thank you for your time and consideration.

Sincerely,

Baylor Kutch
