

Web Support Cover Letter

66610 Kunze RampCreminstad, KS 03616-2770

Dear Tyler Dibbert,

I submit this application to express my sincere interest in the web support position.

Previously, I was responsible for technical direction for the design of small to medium scale system solutions to effectively meet business needs.

My experience is an excellent fit for the list of requirements in this job:

- User's/Customer's profile related queries
- Assist the customer for registration related issue on the portal
- Reset the password for customer
- Provide assistance on Customer Pricing report
- Receive request from new customer to set up there SFDC and SAP account
- Create the task for CMD team to create the account and once done my team inform back the customer
- Strong coding/development knowledge of of the server side technologies [ASP, ASP.Net]
- Working knowledge of Web policies stated in OSD Web Site Administration, DoD Instruction 5230.29, DoD Directives 5230.9 and 5200.40

Thank you for your time and consideration.

Sincerely,

Peyton Schuster
