

# Website Administrator Cover Letter

756 Nell RestPort Jordon, MS 85351-8892

**Dear Morgan Goyette,**

I submit this application to express my sincere interest in the website administrator position.

Previously, I was responsible for implementation, configuration, deployment and ongoing support of the VMware vSphere server infrastructure hosting enterprise applications and all of its subcomponents.

My experience is an excellent fit for the list of requirements in this job:

- Excellent interpersonal skills and analytical reasoning capabilities
- Proficient with Microsoft SharePoint, HTML, and CSS
- Thorough knowledge of web design principles
- Proficiency with web publishing software and protocols (FTP, HTTP)
- Experience with Microsoft SharePoint, HTML, and CSS
- Knowledge of jQuery, JavaScript, and CGI scripting
- Website Administration experience in a professional environment
- Hands on experience with site development skills using HTML, CSS, JavaScript and front end frameworks

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Spencer Grant
