

Windows Server Administrator Cover Letter

227 Fatima Walk Toistad, UT 06991-3257

Dear Ryan Kulas,

Please consider me for the windows server administrator opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for support for Securitas' global data center environment which includes Windows Server technologies, VMware, Citrix XenApp, Cloud Services, SAN/NAS, backup and general server/datacenter maintenance.

Please consider my experience and qualifications for this position:

- Off hours support and off prime shift implementations
- Maintain and monitor hardware
- May be involved in collecting and reporting on Client SLA's
- Provide recommendations to improve virtual infrastructure, and address/lead critical issues and root cause analysis
- Set technical direction for Axcelerate service according to the direction of business and infrastructure solution leads
- Experience in PowerShell automation
- Experienced as a Technical Leader in medium to large service integrations
- Experienced as an Ops Lead for critical services

Thank you for considering me to become a member of your team.

Sincerely,

Armani Bartell
