Dear Peyton Stiedemann,

I submit this application to express my sincere interest in the windows server administrator position.

In my previous role, I was responsible for data backup, server backup and recovery services including those required for business continuity and disaster recovery operations.

My experience is an excellent fit for the list of requirements in this job:

- Experience with standard Windows tools (eg
- Strong understanding of eDiscovery concepts and processes
- Experience operating and supporting eDiscovery processing platforms
- Experience implementing and supporting a recent version of the Recommind Accelerate platform
- Enterprise Windows fleet management background in a mixed environment (Linux, Windows, Mac OS X)
- Experience with setting up and running virtualization technologies like Vmware, Xen or
- Experience designing and implementing scalable systems
- Experience with anti-virus/malware products at the enterprise server level such as Symantec, McAfee

Thank you for taking your time to review my application.

Sincerely,

Blake Gottlieb
