

Example of Anesthetist Job Description

Powered by www.VelvetJobs.com

Our innovative and growing company is looking to fill the role of anesthetist. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

Responsibilities for anesthetist

- Responds to situations requiring Cardio-Pulmonary Resuscitation, and initiate appropriate resuscitative measures
- Performs an individualized pre-anesthetic assessment and evaluation of the patient to include review of consultations, history and physical, and relevant diagnostic studies
- Under the direction of an anesthesiologist, develops an anesthetic plan based on the patient's physiological response and implements plan in the presence of an anesthesiologist
- Applies appropriate noninvasive and invasive monitoring modalities for continuous evaluation of the patient's physical status throughout the perioperative experience
- Administers and continuously monitors the effects of anesthetic medications, fluids and ventilator support
- Facilitates emergence and recovery from anesthesia and provides handoff communication to receiving unit postoperatively (PACU, NICU, PICU)
- Assesses acute and chronic pain modalities individualized to patients in the operative area, pain clinic and on in-patient wards
- Provides post-anesthesia evaluation and discharges patients from the post-anesthesia care area when appropriate
- Complies with all aspects of patient safety, infection control and quality care
- Performs duties of a SRNA as defined in the School of Nurse Anesthesia Student Handbook

-
- Must be able to demonstrate good organizational skills and effective written and verbal communication skills in working with a diverse population of physicians, patients, patient's families, and medical staff
 - Prior work as an anesthetist in an acute care setting is preferred
 - Prior work history with cardiac anesthesia is beneficial
 - Current Georgia License
 - Must have demonstrated ability to exercise good judgment and effectively function in the face of uncertainties inherent in clinical practice
 - AA-C or CRNA Certified
