Our innovative and growing company is looking to fill the role of business analyst / risk analyst. We appreciate you taking the time to review the list of qualifications and to apply for the position. If you don't fill all of the qualifications, you may still be considered depending on your level of experience.

Responsibilities for business analyst / risk analyst

- Become subject matter expert resource and ensure that new solutions address business needs, while ensuring system alignment with application roadmaps
- Critically evaluate information gathered from multiple sources, reconcile conflicts, decompose high-level information into details, abstract up from low-level information to create a clear understanding, and distinguish user requests from underlying true needs
- Employ Interative and Agile methodologies Continuous Integration and Continuous Deployment to improve overall execution speed and product quality
- Collaborate across application development and other technology teams within IT to ensure that business requirements are fully understood
- Conduct data analysis in support of applications and projects, participate and assist with testing, configuration/release management, deployment, and post implementation verification
- Help identify risks, assumptions and constraints for deliverables, and communicate to appropriate parties
- Monitor performance of key initiatives and provide regular updates to senior management
- Perform competitive analyses and benchmarking to improve our understanding of key competitor strategies

to implementation
- Support lending growth initiatives across multiple dimensions spanning pricing, line and cash management

Qualifications for business analyst / risk analyst

- Ability to break problems into well-defined logical and manageable tasks
- Highly motivated, takes initiative and is enthusiastic
- Ability to effectively manage multiple pieces of work concurrently
- At least 3-5 years business and/or technology experiences, preferably with business resiliency background in a banking environment
- Experience partnering with clients to deliver benefits to the business
- Able to demonstrate leadership, practical approach and ability to influence and negotiate with others
